Dear Blucher:

Re: Use of Films in Theaters

It is my understanding that a meeting of the Committee of Counsel has been arranged for June 30, 1975, at ten o'clock a.m., in Washington to review various films. It is further my understanding that you have arranged for a 35 millimeter projector.

All of our films which include mainly the EVE LPGA Tournament, L&M Formula 5000 Racing and the LARK Balloon film are 16 millimeter. None of these films was intended to be used in theaters, that is to say, they are not theatrical films but were intended to be used on a non-commercial basis at adult clubs and organizations only. Will you please advise me as to whether you will have a 16 millimeter projector, and if not, whether we should bring these films.

Sincerely,

Joseph H. Greer
